

**Category:**

Domain Man and Society - Practical activity: Collage model - Kindergarten with Extended Program „Ion Creangă” Zalău - past, present and future

**Year Group:**

Combined Group Normal Program and Combined Group Hungarian Language

Educators: Balabuc-Merce Sorina, Negru Emilia, Major Katalin, Nagy Timea

**Learning Objective:**

- To build our kindergarten past and future from plastic and wooden cubes according to our own imagination
- To make the model: Our kindergarten today
- To work in groups to make the construction and the model

**Resources:**

- Methods and procedures: conversation, explanation, demonstration, exercise, problematization
- Teaching aids: plastic and wooden cubes, boxes, colored paper, watercolors, brushes, glue, silhouettes (trees, flowers, fence, playground), kinetic sand, polystyrene, chopsticks, benches, small table
- Forms of organization: in groups, in teams, individually, frontally

**Lesson Outline:****Lesson Introduction:**

The furniture for group work is arranged, the didactic material necessary for the activity is prepared. The teaching materials are presented to the children.

**Main Lesson:** With the help of the educator, the children prepare very beautiful models from different materials: plastic and wooden cubes, boxes, colored papers, silhouettes, chopsticks. Children build our kindergarten in the past, our kindergarten today and our kindergarten in the future.

**Plenary:** The children showed a lot of imagination and a lot of insight in making these models with all the details very nicely rendered and they were very enjoy this activity.
